Overall Width:

Between 0.305 inches and 0.325 inches

Overall Length:

Between 0.720 inches and 0.760 inches

Overall Thickness:

Between 0.230 inches and 0.250 inches

Bolt Hole Quantity:

1

End Application:

F118 ge eng

Bolt Hole Diameter:

Between 0.215 inches and 0.223 inches

Product Name:

Spacer, hub-front frame

Special Features:

Item consists of p/n 1460m35p01 spacer and p/n 1460m35p02 seal, seal is .08 dia.25 long on both ends of one side

Material:

Steel comp 321 and plastic silicone

Material Specification:

Ams 5510 or ams 5645 assn standard 1st material response and rtv a15f6e2 mfr ref 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
