Overall Length:

34.100 inches

Overall Width:

0.900 inches

Overall Thickness:

0.063 inches

End Application:

A10 afct

Product Name:

Shim

Special Features:

Aluminum sheet, laminated surface bonded. Shim as required, but not to exceed 2 each or .120 to maintain .03 to .08 clearance constant

Material:

Aluminum

Material Specification:

Sae ams4013 assn standard all material responses

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
