Overall Length:

3.820 inches

Flange Diameter:

6.483 inches

Body Diameter:

Between 5.500 inches and 5.502 inches

Body Length:

3.320 inches

Center Hole Diameter:

Between 5.006 inches and 5.008 inches

End Application:

Turbine pump ejection system shutter/linkage assembly

Flange Height:

0.500 inches

Design Type:

Single centrally located hole

Center Hole Cross-sectional Width:

Between 5.006 inches and 5.008 inches

Special Features:

Has 45 degree bevel for a distance of 0.12 inch from hole on top side offlange

Material:

Plastic polyethylene

Style Designator:

Round flanged

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535j0
