Inside Diameter:

Between 0.248 inches and 0.252 inches

Overall Length:

Between 0.970 inches and 1.030 inches

End Application:

C130 aircraft

Large End Outside Diameter:

Between 0.395 inches and 0.399 inches

Tapered Portion Length:

Between 0.970 inches and 1.030 inches

Special Features:

Od of small end is 0.374 to 0.378; od taper is 1/4 inch per foot, surface finish is 125 rms

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-225/9, alloy 7075 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535g0
