Overall Length:

12.000 inches

Overall Width:

9.750 inches

Overall Thickness:

Between 0.125 inches and 0.375 inches

End Application:

Oe-222a/g; 5985-01-425-5641; antenna group

Product Name:

Shim, reflector support

Special Features:

4 holes (0.400 in diameter) and 6 slots (length 0.138)

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250 national specification single material response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
