Overall Length:

2.100 inches

Overall Width:

1.000 inches

Overall Thickness:

0.080 inches

Product Name:

Shim-tapered

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/13, t6 federal specification single material response or qq-a-225/9, t7351 federal specification single material response or qq-a-250/12, t7351 federal specification single material response or qq-a-225/9, t651 federal specification single material response or qq-a-250/12, t651 federal specification single material response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
