## **Overall Length:**

2.360 inches

## **Overall Width:**

0.750 inches

# **Overall Thickness:**

0.250 inches

## End Application:

Oe-222 a/g , antenna

## Product Name:

Spacer (waveguide clamp)

## **Special Features:**

2) equally spaced mounting holes .25 in. From each end to the center of the holes; holes are 1.860 in. Apart center to center: color is white

#### Material:

Aluminum alloy 6061

#### Material Specification:

Qq-a-250/11 military specification single material response

#### Surface Treatment Specification:

Mil-f-14702 military specification single treatment response

## Style Designator:

Rectangular

### Shelf Life:

N/a

#### Unit Of Measure:

--

#### Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

spec.
