Overall Length:

3.110 inches

Overall Width:

0.750 inches

Overall Thickness:

0.060 inches

End Application:

Oe-222 a/g, antenna

Product Name:

Spacer (waveguide clamp)

Special Features:

2) equally spaced mounting holes .25 in. From each end to center of holes; holes are 2.61 in. Apart center to center: color is white

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 military specification single material response

Surface Treatment Specification:

Mil-f-14702 military specification single treatment response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

spec.
