Overall Length:

0.950 inches

Overall Width:

0.600 inches

Overall Thickness:

0.250 inches

End Application:

Landing gear steering b-52

Product Name:

Filler

Special Features:

Item has one rounded edge with a 0.125 radius, contains a 0.281 to 0.307 diameter through hole located 0.330 to 0.350 from the rounded end. Made from bac1512-455 x .60 long

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-345, cond t federal specification single material response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
