End Application:

1440-01-393-6361 launcher, guided missile, aircraft

Product Name:

Seal, wiring harness, dust

Special Features:

Material: elastomer seal and 0.010 inch thick beryllium copper alloy retainer and bond retainer to seal using silicone contact adhesive sr-529

Material Specification:

Mil-c-83528, type d for elastomer seal military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-c-83528 spec.
