**Inside Diameter:**

Between 4.020 inches and 4.025 inches

**Outside Diameter:**

Between 5.036 inches and 5.041 inches

**Overall Thickness:**

Between 0.391 inches and 0.421 inches

**End Application:**

Mk7 mod 3 and 4

**Surface Finish:**

125.0 microinches

**Product Name:**

Space (5.063) piston & rod packing

**Special Features:**

Spacer has 12 holes drilled through and equally spaced; 3 equally space (every 4th hole) are 8-32 unc-2b threaded; remaining 9 are unthreaded and 0.1360 diameter through holes

**Material:**

Copper alloy

**Material Specification:**

Astm b584, aly c92200, as cast assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07000
