General Description:

A prefabricated, panelized, modular, rigid frame design structural steel, structural aluminum and sheet aluminum, supported by a skeletal structure composed of columns, girders, and purlins, columns and girders spaced at 20 ft intervals to form bays, bolted or structurally fasten together as a supporting rigid frame, w/one double panel door one single door panel, 5 window panels and 12 plain panels ea side, including fasteners, hardware and structural bolts o/a dim. 80 ft lg by 60 ft w by 12 ft eave h

Specification Data:

81349-mil-b-28658 government specification

Specification Or Standard:

2 type and f size

Departure From Cited Designator:

As modified by o/a dim.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
