Overall Length:

107.620 inches

Overall Width:

63.280 inches

Overall Thickness:

2.800 inches

End Application:

Deployable strategic mission data preparation shelter system (dsmdpss)

Surface Material:

Aluminum

Design Type:

Exterior wall

Special Features:

Insulation: polyidocuanurate form

Material:

Aluminum

Supplementary Features:

Panel assembly; left side; removable shelter - unit 2; t.O.35e4-193-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T324-d
