Overall Length:

106.940 inches

Overall Width:

59.480 inches

Overall Thickness:

4.500 inches

End Application:

Deployable strategic mission data preparation shelter system (dsmdpss)

Surface Material:

Aluminum

Design Type:

Floor section

Special Features:

Insulation: polyidocuanurate form

Material:

Aluminum

Supplementary Features:

Panel assembly; floor; shelter-unit - 3; t.O.35e4-193-1 (unpublished)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T324-d
