Overall Length:

106.940 inches

Overall Width:

83.660 inches

Overall Thickness:

4.500 inches

End Application:

Deployable strategic mission data preparation shelter system (dsmdpss)

Surface Material:

Aluminum

Design Type:

Exterior wall

Special Features:

Insulation: polyidocuanurate form

Material:

Aluminum

Supplementary Features:

Panel assembly, floor, shelter - unit 1; t.O.35e4-193-1 (unpublished)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T324-d
