Overall Length:

144.000 inches

Overall Height:

108.000 inches

Overall Width:

96.000 inches

Special Features:

Designed to withstand extreme weather conditions; lifespan 20years; fixed site for tracking instrumentation system for stony project alaska range complex; an/gsq-t61; humidity type 30 percentmin, 98 percent max; mil-std-810 chemical resistance; weight without payload less than 7, 000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T324-f
