Overall Height:

6.917 feet

End Application:

485I system

Specific Usage Design:

Is designed to house personnel and equipment requiring tactical mobility and protection against worldwide environmental extremes

Extended Length:

11.417 preset inches

Retracted Length:

11.417 feet

Extended Width:

20.250 feet

Retracted Width:

6.750 preset inches

Special Features:

Possible use for shelter: communication, electronic, metrological, photographic, machinery

Entry Date:

90-04-23

Supplementary Features:

Wall construction: honeycomb

Type/model Designation:

S-530 a/g

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T324-n
