Overall Height:

20.000 feet

End Application:

F-16 ais shelter

Accessory Components And Quantity:

Enviromental control units 2; fireextinguisher 1; bottle rack assembly 1; cabinet 1; rectifier 1; shelf 4; transformer 1; frequency converter 1

Specific Usage Design:

Processor/pneumatic side opening mobile facility side b

Extended Length:

8.000 feet

Extended Width:

8.000 feet

Special Features:

Weight 12000 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T324-n
