Overall Length:

8.500 feet

Overall Height:

5.583 feet

Overall Width:

7.000 feet

End Application:

Digital group multiplexer equipment

Usage Design:

Standardized integrated command post system (sicps)

Door Quantity:

1

Roof Material:

Aluminum faced, nonmetallic honeycomb sandwich panels

Electrically Shielded Feature:

Included

Special Features:

The lms with tunnel, type ii shelter is not available

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T324-f
