Overall Height:

4.333 feet

End Application:

Deployable strategic mission data preparation system shelter group (dsmdps-sg); manufacturer/sm-alc

Accessory Components And Quantity:

Shelter ecu adapter, 2; air return flexible duct (12 in x ten ft long, 1; air supply flexible duct (12 in x 20 ft long, 1; external removable light, 3; ground network (rod and cable), 1; lightning rod and hardware, 1; ground cable, 1; removable wall holder and hardware, 2; support equipment box, 1; closure devices and hardware, 3

Specific Usage Design:

House special test equipment

Extended Length:

6.000 feet

Door Quantity:

1

Criticality Code Justification:

Feat

Special Features:

Group of shelters process/built to be hci/hcp and emi/emp processes

Fsc Application Data:

Internal power pl, 1; emp vault, 1; fire extinguishers, 2; stool (chair w/o back), 1; 3-bay rack, 1; ecu ducts, 2; telecommunication port, 1; pciat workstation, 1; gdu in transsit case, 1; shock isolators, 40; ten in shelves, 4; digitizer mounting, 1; storage cabinet, 2; plotter shock mounted, 1; emergency light, 2; door frame assembly, 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
