Shell Material:

Steel

Assembly Method:

Molded

End Application:

Weapons system, 170' coastal patrol

End Shape:

Cylindrical

Accessory Components And Quantity:

4 feet; 1 universal deck, both welded to the tank

Assembly Form:

Set-up

Support Facility:

Leg

Installation Design:

Horizontal

Mounting Bracket:

Not provided

Installation Location:

Above ground

Tank Capacity:

20.0 gallon, us measure

Liquid For Which Designed:

Water

Two Compartment Feature:

Not included

Special Features:

Dimensions are 14" diameter by 27"high; temp 90deg f; pressure 75psi; maximum flow rate into tank 50gpm

Shape:

Round

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T324-h
