Thread Size:

0.500-20

Pressure Rating:

Between 110.0 pounds per square inch and 125.0 pounds per square inch

End Application:

P-3 support equipment; corrosion control cart; a/m32m-18a

End Shape And Location:

Internal filling fused

Criticality Code Justification:

Agav

Product Name:

Drawing name = assembly reservoir air spray unit corrosion control mounted

Special Features:

Access port cover has 12 each threaded bolts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T103-h
