Maximum Grain Slope:

Any acceptable

Species-grade And Grading Association:

Cedar, northern white no. 3 northeastern lumber manufacturers association or cedar, western no. 3 west coast lumber inspection bureau or cedar, western no. 3 western wood products association or douglas fir no. 3 west coast lumber inspection bureau or douglas fir no. 3 western wood products association or douglas-fir, south, interior no. 3 western wood products association or fir, balsam no. 3 northeastern lumber manufacturers association or fir, balsam no. 3 northern hardwood and pine manufacturers association or fir, subalpine no. 3 western wood products association or hem-fir no. 3 west coast lumber inspection bureau or hem-fir no. 3 western wood products association or hemlock, eastern no. 3 northeastern lumber manufacturers association or hemlock, eastern no. 3 northern hardwood and pine manufacturers association or hemlock, mountain no. 3 west coast lumber inspection bureau or hemlock, mountain no. 3 western wood products association or larch no. 3 western wood products association or pine, eastern white no. 3 northeastern lumber manufacturers association or pine, eastern white no. 3 northern hardwood and pine manufacturers association or pine, idaho white no. 3 western wood products association or pine, jack no. 3 northeastern lumber manufacturers association or pine, jack no. 3 northern hardwood and pine manufacturers association or pine, lodgepole no. 3 western wood products association or pine, pitch no. 3 northeastern lumber manufacturers association or pine, ponderosa no. 2 western wood products association or douglas-fir, south, interior no. 3 northeastern lumber manufacturers association or pine, norway no. 3 northern hardwood and pine manufacturers association or pine, southern no. 3 southern pine inspection bureau or pine, sugar no. 3 western wood products association or redwood no. 3 redwood inspection service or spruce, eastern no. 3 northeastern lumber manufacturers association or spruce, eastern no. 3 northern hardwood and pine manufacturers association or spruce, engelmann no. 3 western wood products association or spruce, sitka no. 3 west coast lumber inspection bureau or tamarack no. 3 northeastern lumber manufacturers association or tamarack no. 3 northern hardwood and pine manufacturers association

Moisture Content Retention Percentage:

Any acceptable

Random Length:

8 feet and longer, permitting 5 pct 8-9 feet and requiring 50 pct 15 feet or longer

Width-location And Measuring Method:

10.000 inches specified

Measuring Method And Length:

8.000 feet random

Surface Condition Degree:

Rough-unsanded full length or surfaced two sides or surfaced four sides

Thickness-location And Measuring Method:

4.000 inches specified

Supplementary Features:

Typical use--structural light framing, for low cost construction, boxes, crates, dunnage, blocking, concrete forms and skids, unit of issue--board foot

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A173a0
