Treatment Type:

Preservative, tt-w-571

Preservative Solution Type:

Coal-tar creosote

Species-grade And Grading Association:

Douglas fir ungraded unrecognized or pine, southern ungraded unrecognized

Measuring Method And Length:

50.000 inches specified

Surface Condition Degree:

Clean peeled full length

Typical Wood Products Use:

Piles for docks, wharves and building foundations preservative treated for coastal waters where teredo present and light limnoria activity

Minimum Circumference And Location:

27.000 inches top and 44.000 inches butt

Service Usage:

In coastal waters

Supplementary Features:

Typical use--for docks, wharves, building foundations, etc., for use in coastal waters of moderate borer hazard, unit of issue--each

Specification Data:

81348-mm-p-371c government specification

Specification Or Standard:

2 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A173a0
