Random Width:

4 inches and wider with a min of 60 pct to be 8 inches and wider

Species-grade And Grading Association:

Pine, eastern white d select northeastern lumber manufacturers association or pine, eastern white d select northern hardwood and pine manufacturers association or pine, idaho white quality western wood products association or pine, ponderosa d select western wood products association or pine, ponderosa prime finish western wood products association or pine, norway d select northeastern lumber manufacturers association or pine, norway d select northern hardwood and pine manufacturers association or pine, sugar d select western wood products association or pine, sugar prime finish western wood products association

Moisture Content Retention Percentage:

15.0

Random Length:

4 ft and longer w/a maximum of 5 pct to be 4-7 ft and a min of 50 pct 12 ft and longer

Width-location And Measuring Method:

4.000 inches random

Measuring Method And Length:

4.000 feet random

Surface Condition Degree:

Surfaced two sides

Thickness-location And Measuring Method:

1.250 inches specified

Typical Wood Products Use:

Cutting quality finish grades used in lieu of shop grades for remanufacturing and finish purposes

Supplementary Features:

Unit of issue-bf

Specification Data:

81348-mm-l-751 government specification

Specification Or Standard:

I table

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A173a0
