Random Width:

Min of 60 pct 8 in. And wider

Species-grade And Grading Association:

Pine, eastern white d select northeastern lumber manufacturers association or pine, eastern white d select northern hardwood and pine manufacturers association or pine, idaho white quality western wood products association or pine, ponderosa d select western wood products association or pine, ponderosa prime finish western wood products association or pine, norway d select northeastern lumber manufacturers association or pine, norway d select northern hardwood and pine manufacturers association or pine, sugar d select western wood products association or pine, sugar prime finish western wood products association

Moisture Content Retention Percentage:

19.0

Random Length:

4 ft and longer w/ maximum of 5 pct 4-7 ft

Width-location And Measuring Method:

4.000 inches random

Measuring Method And Length:

4.000 feet random

Surface Condition Degree:

Surfaced two sides

Thickness-location And Measuring Method:

2.500 inches specified

Typical Wood Products Use:

Cutting quality finish grades used in lieu of shop grades for remanufacturing and finish purposes

Supplementary Features:

U/i-board foot

Specification Data:

81348-mm-l-751 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A173a0
