**Species-grade And Grading Association:**

Cedar, northern white c select northeastern lumber manufacturers association or cedar, western a finish west coast lumber inspection bureau or cedar, western c select western wood products association or cedar, western superior western wood products association or douglas fir c and better select west coast lumber inspection bureau or douglas fir c select western wood products association or fir, subalpine c select western wood products association or fir, subalpine superior western wood products association or hem-fir c and better select west coast lumber inspection bureau or hem-fir c select western wood products association or hem-fir superior western wood products association or hemlock, eastern c and better select northern hardwood and pine manufacturers association or hemlock, eastern c select northeastern lumber manufacturers association or hemlock, mountain c and better select west coast lumber inspection bureau or hemlock, mountain c select western wood products association or hemlock, mountain superior western wood products association or larch c select western wood products association or larch superior western wood products association or pine, eastern white c and better select northeastern lumber manufacturers association or pine, eastern white c and better select northern hardwood and pine manufacturers association or pine, idaho white c select western wood products association or pine, idaho white choice western wood products association or pine, idaho white superior western wood products association or pine, jack c and better select northeastern lumber manufacturers association or pine, jack c and better select northern hardwood and pine manufacturers association or pine, lodgepole c select western wood products association or pine, lodgepole superior western wood products association or pine, pitch c select northeastern lumber manufacturers association or pine, ponderosa c select western wood products association or pine, ponderosa superior western wood products association or pine, norway c and better select northeastern lumber manufacturers association or pine, norway c and better select northern hardwood and pine manufacturers association or pine, southern c finish southern pine inspection bureau or pine, sugar c select western wood products association or pine, sugar c and better industrial clears western wood products association or redwood clear redwood inspection service or spruce, eastern c and better select northern hardwood and pine manufacturers association or spruce, eastern c select northeastern lumber manufacturers association or spruce, eastern c select northern hardwood and pine manufacturers association or spruce, engelmann c select western wood products association or spruce, engelmann superior western wood products association or spruce, sitka b and better west coast lumber inspection bureau or tamarack c select northeastern lumber manufacturers association or tamarack c and better select northern hardwood and pine manufacturers association

**Moisture Content Retention Percentage:**

15.0

**Random Length:**

4 ft and longer, permitting 5 pct 4-7 ft and requiring 50 pct 12 ft or longer

**Width-location And Measuring Method:**

4.000 inches specified

**Measuring Method And Length:**

6.000 feet random

**Surface Condition Degree:**

Surfaced four sides

**Thickness-location And Measuring Method:**

1.500 inches specified

**Typical Wood Products Use:**

High quality finish interior trim, cabinet work, casing, baseboard, door and window trim

**Supplementary Features:**

Unit of issue--bf

**Specification Data:**

81348--mm-l-751 government specification

**Shelf Life:**

N/a

**Unit Of Measure:**
