Width:

15.000 inches

Thickness:

3.500 inches

Length:

48.000 inches

Environmental Protection:

Water repellent

Layer Quantity:

1

Mounting Facility:

Flange

Maximum Thermal Conductivity:

0.33 at 75 degrees f

Layer Material:

Mineral wool

Layer Thickness:

2.000 inches

Added Binder:

Not included

Affixed Sheet:

Included

Environmental Attribute Code:

Comprehensive procurement guideline - construction products - building insulation products

Special Features:

Contains recycled material

Specification Or Standard:

2 type and c class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T230-b
