Width:

54.000 inches

Tempurature Rating:

200.0 degrees fahrenheit

Layer Quantity:

1

Noise Reduction Coefficient Rating:

Between 0.04 and 0.73

Layer Material:

Plastic, polyvinyl chloride 1st layer

Layer Thickness:

0.500 inches and 1.000 inches

Quilted Feature:

Not included

Special Features:

3 military urethane vinyl facing for oil, grease resistance; 50 ft lg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T230-b
