Width:

35.500 inches

Thickness:

1.000 inches

Length:

37.000 inches

Coating Material Location:

One side

Layer Material:

Fiberglass

Special Features:

14 in. Diameter hole just off-center; barrier coat on one side

Supplementary Features:

Insulation panel for deisel engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T230-b
