Insulation Thickness:

0.750 inches

Length:

72.000 inches

Design Form:

Split round

Temperature Rating:

Between -160.0 degrees fahrenheit and 200.0 degrees fahrenheit

Special Features:

Resistant to water and sunlight; color black; meets astm e-84 for flame and smoke; closed cell; 1-3/8 inch insulation diameter; insulation has a polymer pressure sensitive adhesive strip for quick sealing; material is a uv-resistant polyethylene foam pipe and tube insulation; insulation id is 1-1/8 inches

Flexibility:

Flexible

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A016a0
