Insulation Thickness:

0.500 inches

Length:

72.000 inches

Design Form:

Split round

Temperature Rating:

Between -160.0 degrees fahrenheit and 200.0 degrees fahrenheit

Special Features:

Resistant to water and sunlight; color black; meets astm e-84 for flame and smoke; insulation has a polymer pressure sensitive adhesive strip for quick sealing; material is a uv-resistant polyethylene foam pipe and tube insulation; 3 in. Insulation dia.

Flexibility:

Flexible

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
