Fabrication Method:

Woven

Inside Diameter:

4.000 inches

Length:

30.000 inches

End Application:

Mrap m-atv uik

Design Form:

Full round

Temperature Rating:

750.0 degrees celsius

Special Features:

Thermojacket e is a knitted sleeve used for insulation of high temperature exhaust systems; designed with basalt yarns; can expand up to

1.5 times its own diameter

Flexibility:

Flexible

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A016a0
