Fabrication Method:

Molded

Insulation Thickness:

0.500 inches

Inside Diameter:

0.375 inches

Length:

72.0 inches

End Application:

Air conditioner

Design Form:

Split round

Tempurature Rating:

Between -70.0 degrees fahrenheit and 200.0 degrees fahrenheit

Special Features:

Pre-slit with pressure sensitive adhesive on both seams; color: black; fiber-free epa antimicrobial agent to resist mold, fungal and bacterial growth; cfc free

Flexibility:

Flexible

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
