Fabrication Method:

Molded

Insulation Thickness:

0.375 inches

Inside Diameter:

0.625 inches

Length:

72.000 inches

Design Form:

Split round

Temperature Rating:

Between -70.0 degrees fahrenheit and 200.0 degrees fahrenheit

Special Features:

Pre-slit with pressure sensitive adhesive on both sides; color: black; fiber-free epa antimicrobial agent to resist mold, fungal, and bacterial growth; cfc free

Flexibility:

Flexible

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A016a0
