Thermal Insulation Sleeving - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5640-01-631-5574

Fabrication Method:
Molded
Insulation Thickness:
0.375 inches
Inside Diameter:
0.625 inches
Length:
72.000 inches
Design Form:
Split round
Tempurature Rating:
Between -70.0 degrees fahrenheit and 200.0 degrees fahrenheit
Special Features:
Pre-slit with pressure sensitive adhesive on both sides; color: black; fiber-free epa antimicrobial agent to resist mold, fungal, and bacterial
growth; cfc free
Flexibility:
Flexible
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A016a0
