Fabrication Method:

Helically wound

Overall Height:

72.000 inches

Edge Type:

Barbed edge and knuckle edge

Surface Treatment Application Stage:

After fabrication

Mesh Size:

2

Filament Size:

0.1200 inches

Filament Location:

Edge Location:

Bottom and top

Mesh Shape Style:

Diamond square

Material:

Steel

Material:

Steel

Surface Treatment:

Zinc

Surface Treatment:

Zinc

Specification Or Standard:

1 class and a finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A08800
