Pattern Design:

Plain

Special Features:

Four holes through 0.264 in. Dia., 7.250 in. Btwn holes along length of flat, 1.500 in. Btwn holes along width of flat, nine holes equally spaced 0.273 in. Dia., from centerline of first hole 5.000 in. To centerline of ninth hole, two holes 0.190 in. Dia. Are 0.546 in. From first and ninth holes and 0.201 in. To the side and below each, length is 8.000 in., height 1.200 in., width 2.250 in.

Material:

Steel

Material:

Steel

Surface Treatment:

Oxide and passivate and chromate zinc

Surface Treatment:

Black oxide and passivated and zinc chromate

Fsc Application Data:

Aircraft seat

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
