Overall Length:

48.000 inches

Overall Width:

8.000 inches

Special Features:

0.081 in stationary blade; 0.081 in frame; 8.000 in louver depth; .370 sq ft free area; 6712 cfm air volume delivered at 1250 fpm; 550 fpm face velocity; 0.800 in wg staqtic pressure drop at 1250 fpm

Material:

Aluminum alloy

Surface Treatment:

Primer

General Description:

A0.081 in stationary blade; 0.081 in frame; 8.000 in louver depth; .370 sq ft free area; 6712 cfm air volume delivered at 1250 fpm; 550 fpm face velocity; 0.800 in wg staqtic pressure drop at 1250 fpm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
