Specific Use:

Food preparation surface and non-structural

Material Form:

Hollow

Features Provided:

Insect resistant and chemical resistant

Material Type:

Recycled plastic

Nominalthickness:

1.000 inches

Nominallength:

16.000 feet

Nominalwidth:

4.000 inches

Special Features:

Dimensional lumber; channeled for increased flexural strength; requires standard tools and fasteners; environmentally friendly; color-brownish grey; 16 lbs; resistant to decomposition, mold/mildew

Color:

Brown

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A522v0
