Material Form:

Hollow

Material Type:

Plastic

Nominalthickness:

1.0 inches

Nominallength:

6.0 feet

Product Name:

Hexweb nonmetallic flex-core

Nominalwidth:

42.0 inches

Special Features:

Formable into compound curvatures. Has high shear strength. Material is aramid paper reinforced by phenolic resin in a cellular configuration.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A522v0
