Cell Depth:

0.125 inches

Product Name:

Aramid fiber/phenolic resin honeycomb

Special Features:

High strength at low densities, small cell size as low densities, fire resistant, honeycomb is available in 48in, 3.0 is the density in pounds per per cubic foot,

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T232-f
