Structural Cellular Core Material - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5680-01-649-1323

Cell Depth:
0.125 inches
Product Name:
Aramid fiber/phenolic rasin honeycomb
Special Features:
High strength at low densities, small cell size as low densities, fire resistant, honeycomb is available is 48in, 3.0 is the density in pounds
per per cubic foot,
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
