**General Description:**

Electrical data, -48.0 vdc, 0.75 amps max, 50.0 hz convertible, trunk input, capacity, 500 input leads max. /fully equipped unit/, demensions 19.0 in. Lg, 12.0 in. W, 7.0 in. H, physical characteristics, construction, modular-all solid state circuitry mounted on plug-in circuitboard, 20 lbs rack mounted, group outputs may be used to drive electronicregister units, or count monitor, component parts, 500 point scanner 1, extender card 1, input cable 11, hardware mounting kit 1, part no.Ra80450 is rack mounted, part no pa80450 is portable, both itemsare the same except for mounting application requirement

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
