General Description:

Electrical data, dc/ac, minus 48 vdc, 120.0 vac, 50 to 60 hz0.750 amps, 1/10 w, o/a dim. 12.0 in. Lg, 12.0 in. W, 7 in. H, 17 lbs, performance characteristic, input, capacity, 250 4 digit memory registerseach, printout in ascending blocks, 25 registers each, repetition rate, 25 pps counts input max, output, auto-printout, internal 15 min, 30 min, 1 hr as selected, electrically counts, accumulates and outputs thequantity of discrete, electrical impulses occurring over a specific timeinterval, component parts, count monitor 1, input cable 5, sync generatorcable 1, tty cable 1, extender card 1, nomenclature type oa-8745-v/ 1/gt

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
