General Description:

Physical characteristics, aluminum case, electrical data, input-5.50 vdc, -48.0 vdc, 8.0 vdc, 13.0 vdc, dimensions 10.31 in. Lg, 4.80in. W, 1.34 in. H, principles of operation, provides xmit and recv lifting and monitor jacks, application data, end item, telephone terminal, pulse code modulation, jetds, type no. An/fcc-96/v/

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
