Overall Length:

11.500 inches

Overall Height:

1.250 inches

Overall Width:

5.250 inches

Dc Voltage Rating:

24.0 volts

Joint Electronics Type Designation System Item Name:

Transmitter, order wire

Joint Electronics Type Designation System Item Type Number:

Type no.T-1162/frc

Special Features:

Terminal service; 1 communication circuit; freq data, 300 to 3000 cycles transmitting freq range, 300 to 2600 cycles freq range of ea order wire circuit; 2600 cycles signalling within communication circuits; 50 mv maximum power output; for specific use, data regarding equipment appl, jetds, receiver-transmitter, order wire, type no.Rt987/v/1/frc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T199-d
