End Application:

An/ttc-22 communication central

General Description:

47 to 49 vdc output; voltage adjustable by externally accessible potentiometer; encapsulated; hermetically sealed; base material aluminum 6d61-t6; case material steel; 4.875 in. Lg; 3.375 in. W; 2.875 in. H; no.1 pin positive 25 vdc input; no.2 pin negative 28 vdc input; no.3 pin positive dc output; no.4 pin negative dc output

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
