End Application:

Peace sheild program

Special Features:

Module contains a transmit tone; 1.420 in w; 5.580 in h; 5.960 in d; 2800.0hertz transmitted signal frequency; channel modem type; 4 circuit quantity; 500.0 hertz received and 3000.0 hertz receiving

Functional Description:

Tone detector module

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T187-d
