Overall Height:

12.900 inches

Overall Width:

10.190 inches

Case Material:

Aluminum

Overall Thickness:

4.590 inches

End Application:

7556789 (53711), 31v voice ckt, analog tele cvn68

Transmitter Current Supply Source:

Pbx and power in connector

Dial:

Not included

Inclosure Locking Facility:

Not furnished

Dial Blank:

Not included

Push-to-talk Switch:

Not included

Features Provided:

Keyboard memories for numbers

Product Name:

Inavy: telephone, analog - emi; mfr: analog phone, weather proof desk and bulkhead

Special Features:

Interfaces with any pbx utilizing standard 2 wire analog interface; weather pfoof - meets stresses common to sea-going vessels such as shock, vibration, emi; responds to forward party disconnect signaling; has automatic redial button and 10 speed dials; led backlit dial pad; sonalert for audible signaling and led for active indication

Color And Location:

Gray

Style Designator:

Push button

Supplementary Features:

Input voltage: 48 vdc; input power: 5 watts max; cast aluminu construction designed for desk or bulkhead mounting (3 unthreaded holes, 0.391 in. In dia); mating connectors: one ms3106f20-29s pbx in and power, two u-77/u connectors for handset or headset and aux.
